FEATURED PRODUCT

DASCOM T5040/T5040N Flatbed Printer

Fast, flexible document printing for demanding front-office environments

The **DASCOM T5040** is a versatile flatbed printer designed to process a wide variety of print media, from passbooks to cheques, receipts and A4/A5 forms.

Its flatbed design provides secure paper handling, while intelligent features including automatic document alignment, automatic print-head clearance and automatic paper-edge detection make everyday operation straightforward and efficient.

Ideal for government departments, local authorities, educational institutions and other administrative environments, the T5040 supports the efficient production of permits, certificates, forms and other business-critical documents.
